TY WALKER

Welcome to Conquest !  
So! I see two new  
Clients !

May the meeting begin!

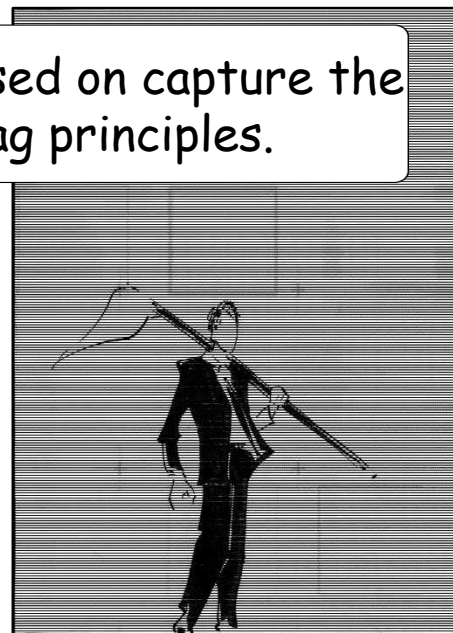

Hello, we would loke to  
kow what is Conquest.

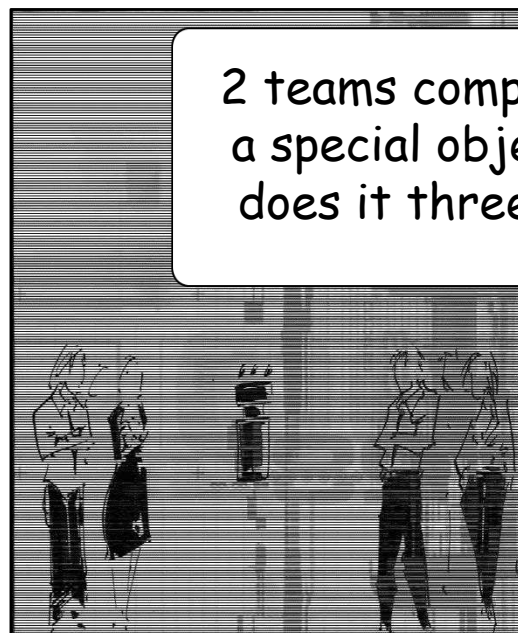

Conquest is an immersive  
training simulation for business  
executives to develop key skills.

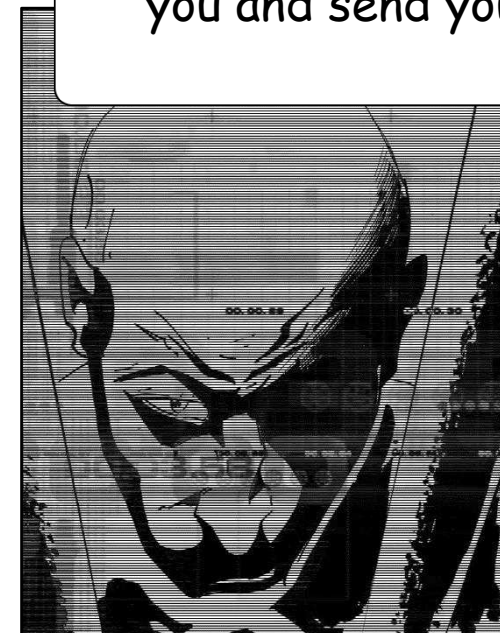

It is based on capture the  
flag principles.

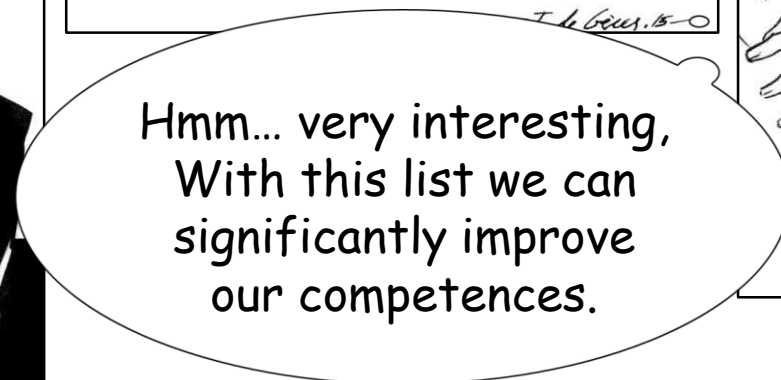

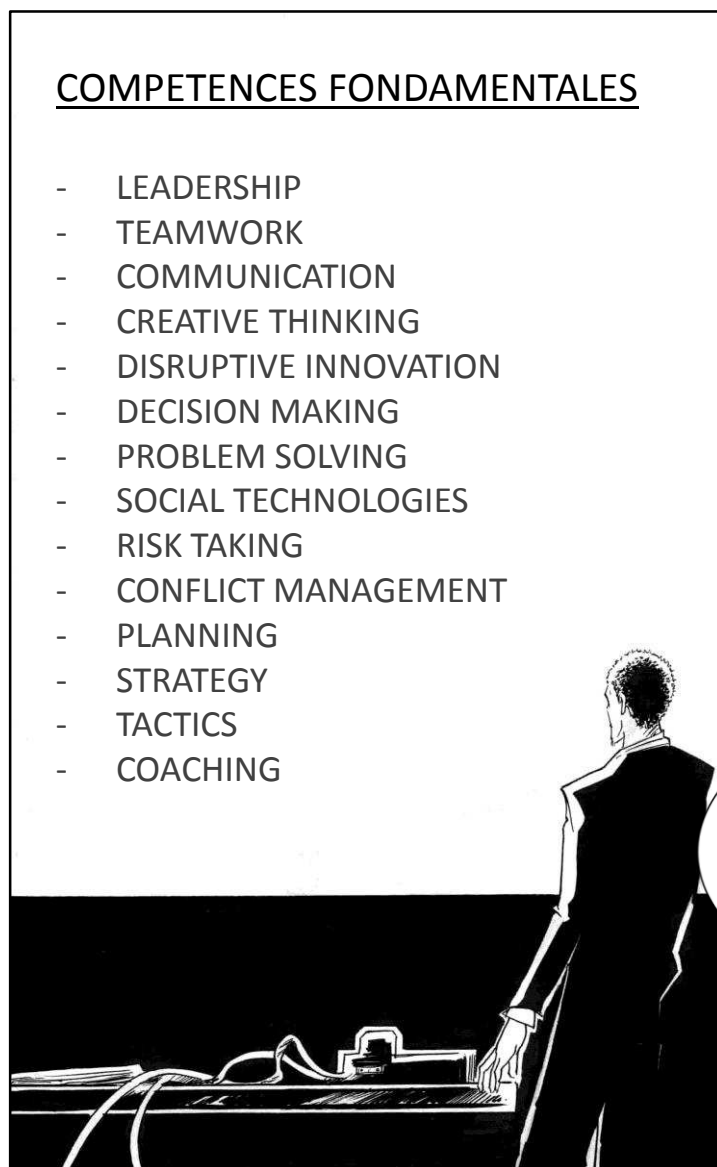

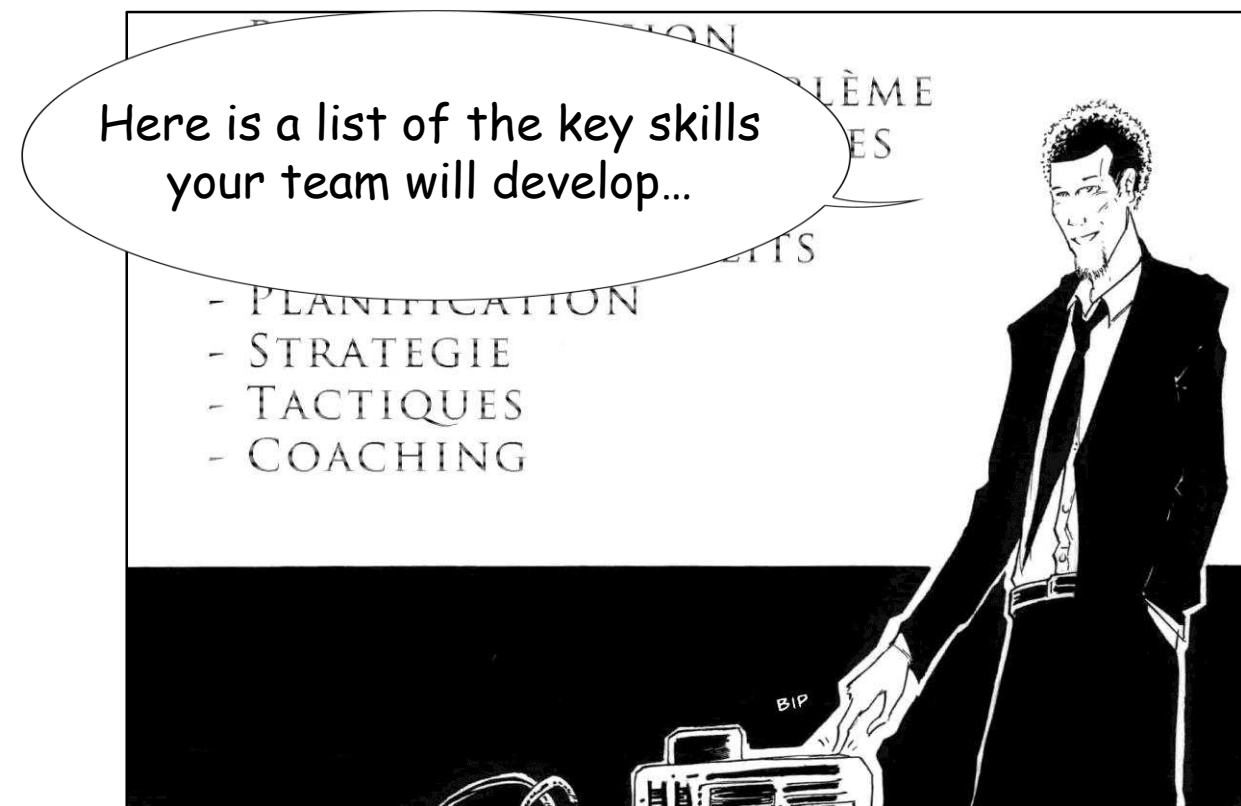

2 teams compete to captur  
a special object. Whoever  
does it three times wins !

Opposing players can tag  
you and send you to jail.

How do we learn ?

Here's  
an example.

Very simple,  
You learn by doing !

Next spring you'll face  
each other, but first learn  
to fight.

The first monk relaxed  
under a tree to learn king fu  
from a book.

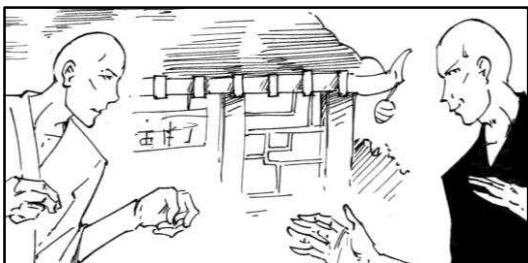

While the second trains on a  
pole, failing and hurting, until  
exhaustion.

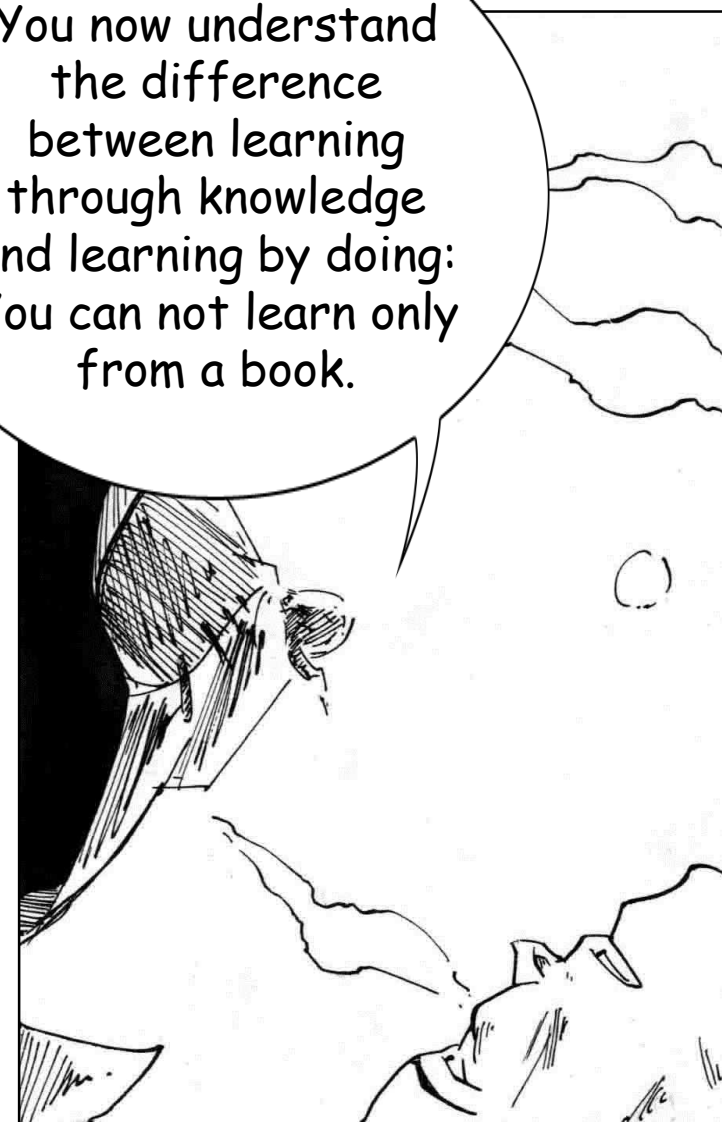

You now understand  
the difference  
between learning  
through knowledge  
and learning by doing:  
You can not learn only  
from a book.

On test day, the two  
monks prepared to  
duel.

The match barely started,  
the first monk went down !

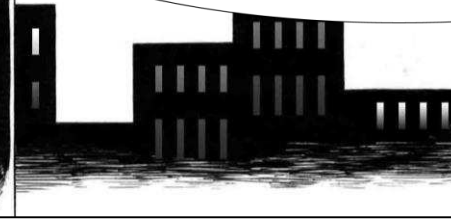

How do you coach ?

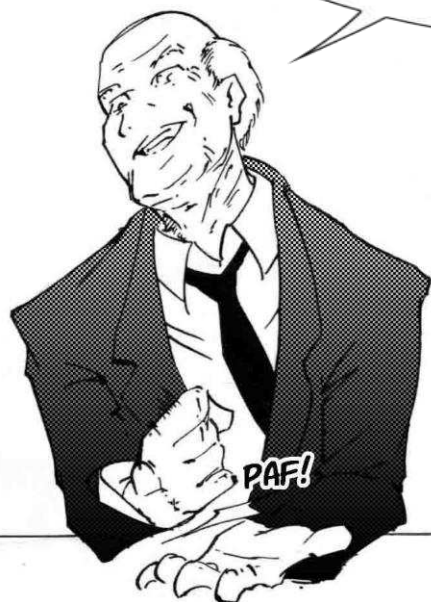

We use coaching to develop leadership and teamwork.

We focus on individual and team coaching sessions. We use key metrics defined by the teams to structure personalized learning, self-assessment and goal planning.

As one learns by **doing**, new skills are transferable to the business straight away

What is the story of  
Conquest ?

It is about a battle for  
power between two  
corporations.

On one hand you have  
The Circle Inc.  
Which controls  
everyone through the  
power of **good**  
**management**.

And on the other  
hand, you have  
Black Swan, a  
secret resistance  
force fighting to  
reveal the truth  
about the power  
of **The Circle**.

And only one  
can win !

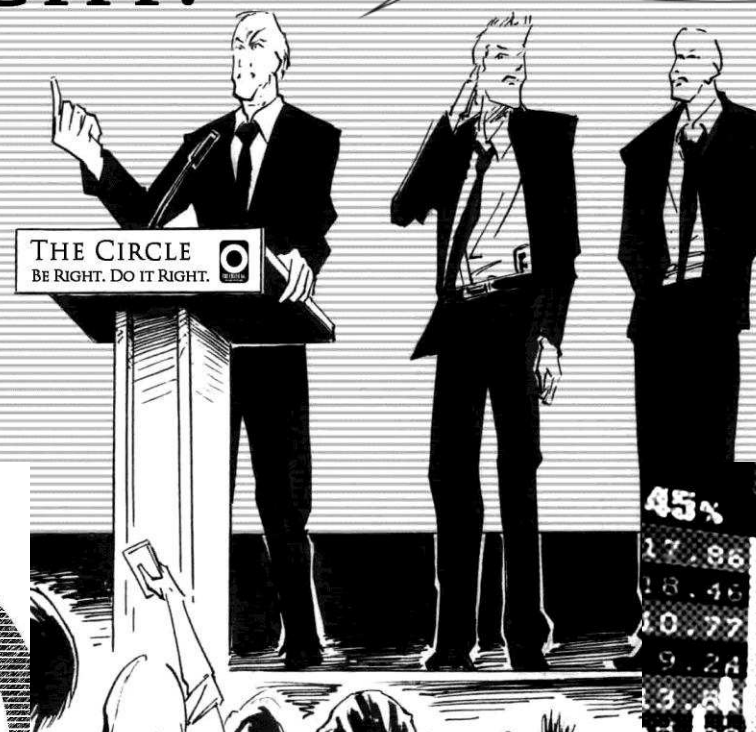

# THE CIRCLE

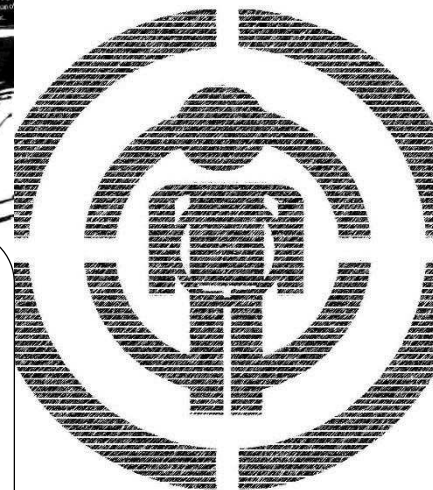

## BE RIGHT. DO IT RIGHT.

We are at the top of our industry, precisely because we listen to you !

... And because we carefully study market trends and **systematically** allocate investment capital to innovations, it promises the **best returns!**

...And then invest aggressively in **technologies**

...Which provide you with products of a quality that **answers your needs.**

We have won our #1 leadership position.

All i have to do is keep Black Swan out and i will win !

Flint Hecate knows there is only 7 days left before The Circle's public offering on NASDAQ and his resulting professional and personal success will make him one of the richest and most powerful man in the world.

If you take the **red pill** you go back to the **dream world of The Circle**. The **blue pill** is the antidote to the red pill. It will open your mind and I will show you how deep the rabbit-hole goes.

**BLACK SWAN**  
IF EVERYONE THINKS THE SAME,  
NO ONE THINKS

Ty, the red pills are manufactured on an industrial scale and sold to other companies who want to accelerate their Good Business Strategy. **We must stop them.** But first Janus wants you to see the **Futurist**.

**Ty** is corporate **Medical Director** at **The Circle**, a multinational which manufactures "the red pill", a drug for corporate "well-being" of the health programs sold worldwide and with a market share of about 90%.

Ty has had some doubts about the real purpose of the red pill and **secretly began to run some tests on the drug**. He was **caught by The Circle's internal security agents** but with the help of **Janus and Nia at Black Swan**, he escaped.

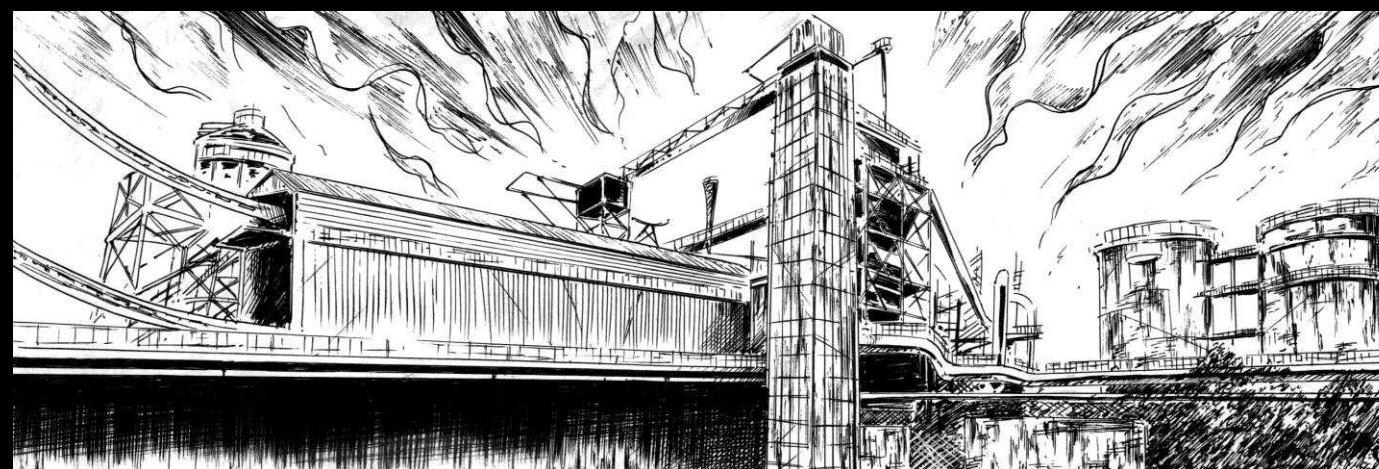

On the way back from The Futurist, Ty and the Black Swan team are **betrayed** by one of their own and are ambushed by The Circle agents.

Ty, Janus and his team must escape the ambush and disable the drugs manufacturing center. To do this, they need to bring the three Quantum fuses that control the factory to the Black Swan base to destroy them.

Make your own future, Ty.

Chief,  
we lost them.

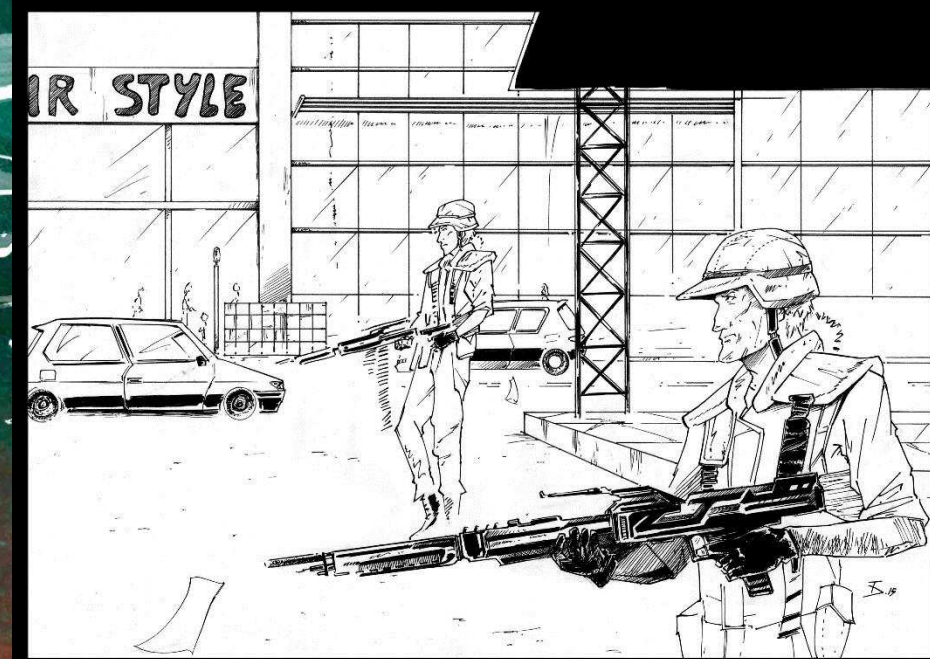

The Circle's alpha team agents must stop the Black Swan team. To do this, they need to stop Ty and his team from escaping the ambush point and bring back the three Quantum fuses that control the drug factory to **The Circle base for safe keeping.**

AMBUSH!

ALPHA AGENTS!

CATCH THE FLAG!

BLACK SWAN BASE!

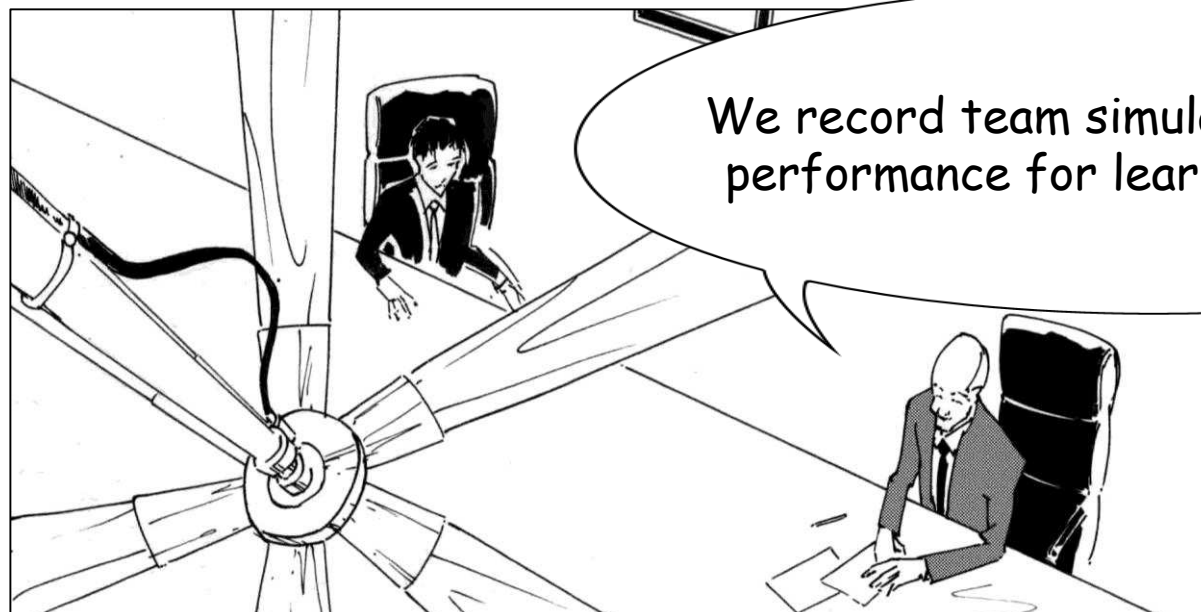

Thanks for the info,  
I almost forgot...  
How do you use social  
learning tools ?

We have a social platform  
for team planning and  
preparation.

We use forums, chat, e-mails, and videos to share learning  
and best practices

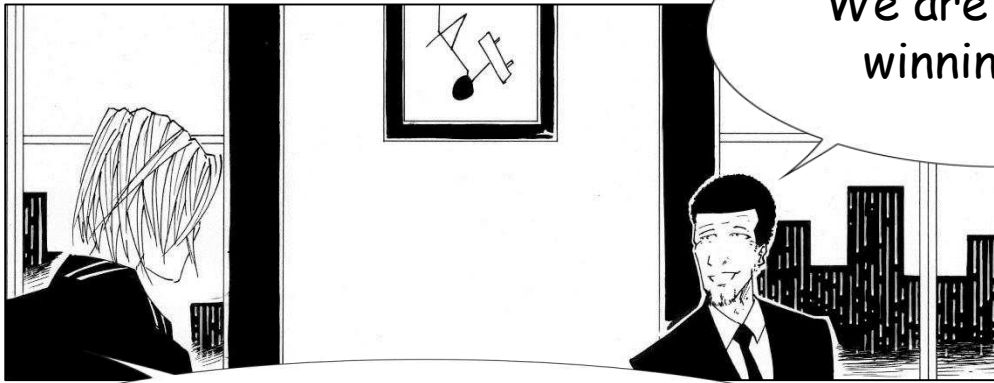

We record team simulation and individual  
performance for learning and feedback

We also organize leadership  
tournaments.

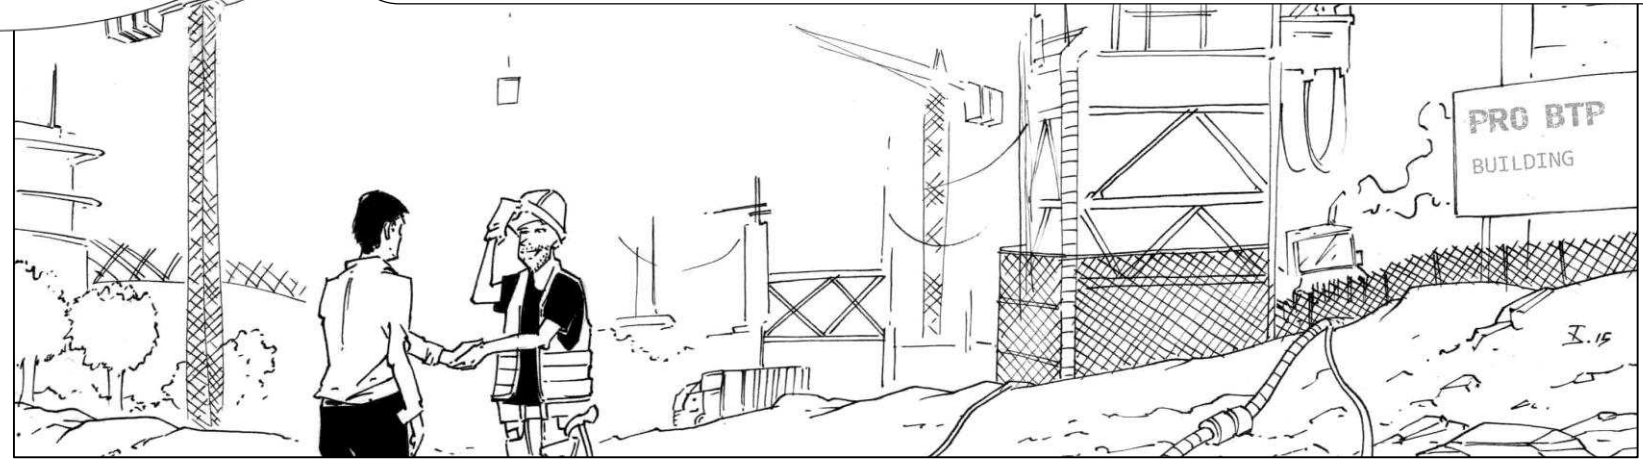

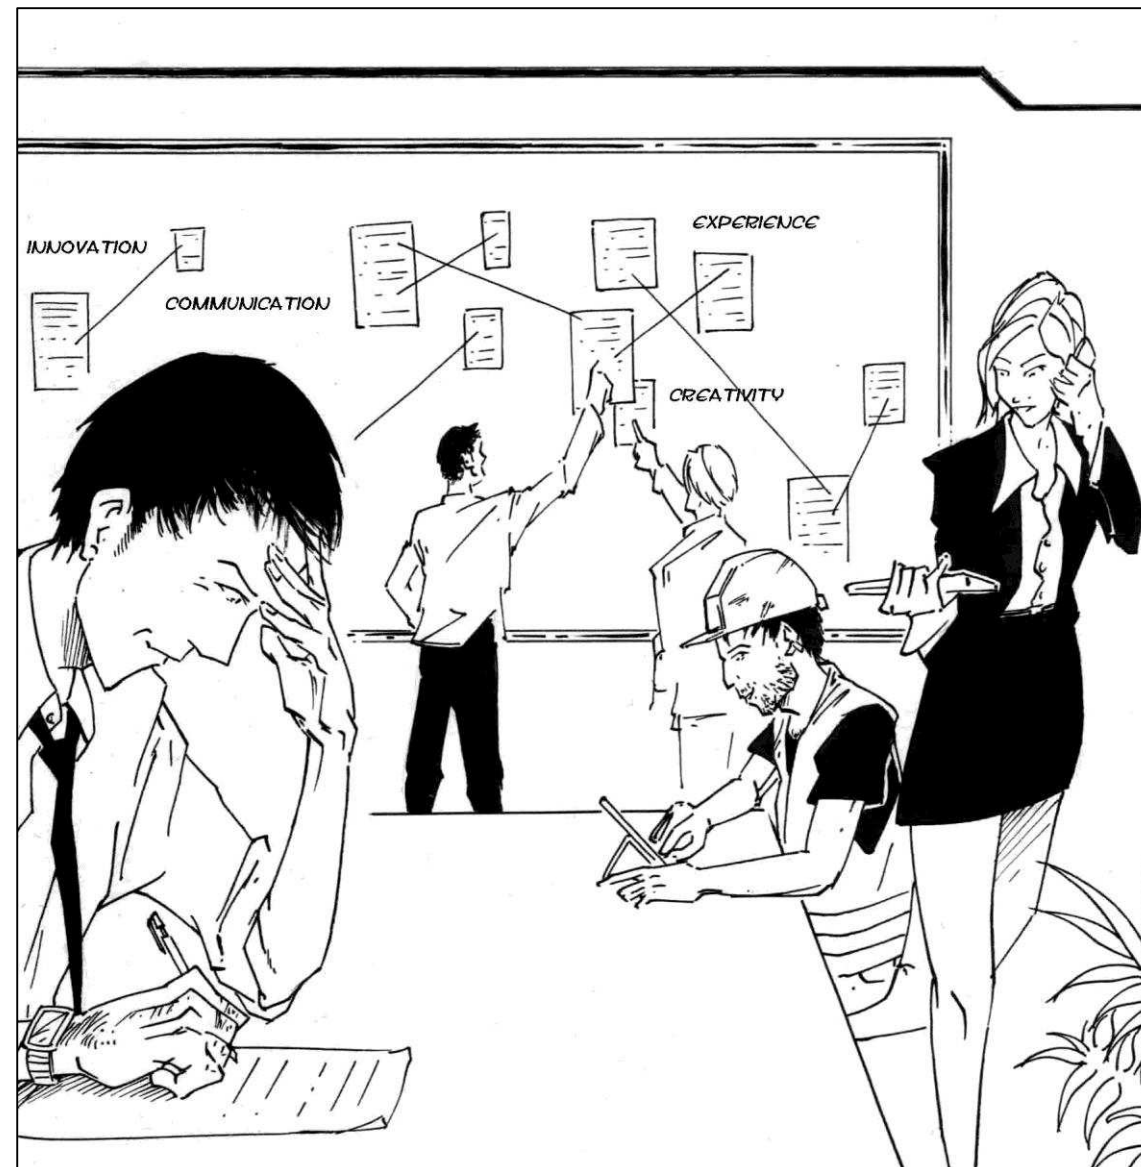

We are an award winning team.

We have worked with PRO BTP, Laureate Education, Royal Dutch Shell, Computer Science Corporation, Philips Design, Philips Healthcare And a range of other clients.

Who is Disruptive Learning Solutions ?

Our strength comes from the way we have integrated our experience of working in innovation, collaboration, learning and coaching with 3D technology to create virtual training solutions

We help organizations use new technologies to cut training cost

...and rapidly deploy new skills into their business.
